Improvement Committee
Date of Meeting
14th December 2022
Agenda item:
4.2

Public Health Wales Strategic and Corporate Risk Registers

Executive lead: Rhiannon Beaumont-Wood, Executive Director of Quality, Nursing and Allied Health Professionals

Author: Beth Osborne, Risk Manager

Approval/Scrutiny route: Rhiannon Beaumont-Wood, Executive Director of Quality, Nursing and Allied Health Professionals

Purpose

Receive strategic and corporate risks for the purpose of scrutiny and challenge and approve any changes within the Committee’s remit.

Recommendation:

| | | | | |
|-------------------------------------|---|---------------------------------------|-----------------------------------|--|
| APPROVE <input type="checkbox"/> | CONSIDER <input checked="" type="checkbox"/> | RECOMMEND <input type="checkbox"/> | ADOPT <input type="checkbox"/> | ASSURANCE <input checked="" type="checkbox"/> |
|-------------------------------------|---|---------------------------------------|-----------------------------------|--|

Recommendation

The Quality, Safety and Improvement Committee is asked to:

- **Consider** the Strategic and Corporate Risk Register that have relevance to the Committee’s remit
- **Take assurance** that the organisation’s Strategic and Corporate risks are being managed appropriately

Link to Public Health Wales [Strategic Plan](#)

Public Health Wales has an agreed strategic plan, which has identified seven strategic priorities.

This report contributes to all Strategic Priorities

Summary impact analysis

| | |
|--|--------------------------|
| Equality and Health Impact Assessment | No decision is required. |
|--|--------------------------|

| | |
|---------------------------|--|
| Risk and Assurance | This submission is the relevant strategic and corporate risks. |
|---------------------------|--|

| | |
|----------------------------------|--|
| Health and Care Standards | This report supports and/or takes into account the Health and Care Standards for NHS Wales Quality Themes Governance, Leadership and Accountability |
|----------------------------------|--|

| | |
|-------------------------------|--|
| Financial implications | The financial implications of failing to manage corporate risk effectively are significant, both in terms of the potential for loss and also the failure to capitalise on opportunities. |
|-------------------------------|--|

| | |
|----------------------------|-------------------------|
| People implications | No people implications. |
|----------------------------|-------------------------|

1. Purpose / situation

This paper presents any strategic and corporate risks that have relevance to the remit of the Quality, Safety and Improvement Committee.

The paper highlights any changes since the Committee last reviewed the risk(s) and seeks approval from the Committee for any changes and confirmation that the Committee is assured that the risk(s) are being managed appropriately.

The Strategic Risk Register details the highest level risks that could prevent the organisation from delivering on its strategic priorities.

The Corporate Risk Register details the highest level operational risks that are being managed on a day-to-day basis by Executive Directors.

2. Delivery Confidence Assessment

All strategic risks carry a delivery confidence assessment assigned by the Executive Sponsor. The table below demonstrates the RAG status.

| DCA RAG | DCA Description |
|---------|---|
| High | High degree of confidence exists that the controls and actions identified will mitigate the risk to the required level. |
| Medium | It is feasible that the controls and actions identified will mitigate the risk to the required level but issues remain outstanding that require addressing. |
| Low | There is little confidence that the controls and actions identified will mitigate the risk to the required level. |

3. Risk Appetite

The strategic themes have been assessed with a risk appetite being approved for each. All strategic and corporate risks have been assessed against the risk appetite. The table below demonstrates the risk appetite by strategic theme.

| Strategic Theme | Appetite Descriptor |
|--|---------------------|
| Enabling better population health and reducing health inequalities through preventative and sustainable measures | Willing |
| Delivering excellent services for population screening programmes, health protection and infection | Cautious |
| Supporting improvements in the quality and safety of health and care services | Keen |
| Maximising the use of digital, data and evidence to improve population health | Willing |
| Enabling the successful delivery of the plan | Willing |

4. Strategic Risks

The Strategic Risk Register is the vehicle through which the Board takes assurance that it has a clear understanding of the strategic risks facing the organisation in the delivery of its strategic objectives, together with the severity and the impacts if the risks are realised.

Public Health Wales has six strategic risks with two risks sitting within the remit of this Committee. An overview of any changes since they were last reviewed by the Committee is provided below, with the full risks provided in Appendix 1.

4.1. Risk 1

The controls in place relate to teams or meetings that discuss the topic of the risk. One control is assured at the highest level of assurance, the remaining at a BET level or are currently not indicated. A number of actions have been identified and completed during this reporting period. Assurance can be taken in the robust process in place to monitor and respond to potential emerging geopolitical, socio-economic and health threats.

| Risk Description | | | | | | |
|--|--------------------------------|---|----|---|---|----|
| There is a risk that Public Health Wales will not be sufficiently focused, agile and responsive in discharging our functions, caused by the unpredictable and changing nature of the current and emerging geopolitical, socio-economic and health threats, resulting in an inability to tackle the population health challenges in a sustainable way. | | | | | | |
| Risk Appetite | | | | Proposal for de-escalation or removal* | | |
| Willing | | | | Not Applicable | | |
| Risk Scoring | Score at last Committee | | | Present Score | | |
| Inherent | 4 | 4 | 16 | 4 | 4 | 16 |
| Current | 4 | 4 | 16 | 4 | 4 | 16 |
| Target | 3 | 4 | 12 | 3 | 4 | 12 |
| DCA at last Committee | | | | Present Live DCA | | |
| Amber | | | | Amber | | |
| Executive Sponsor Insight | | | | | | |
| The organisation has an approved IMTP and we continue to monitor the impact of the IMTP to respond to potential emerging geopolitical, socio-economic and health threats. The current and emerging threats are being incorporated into the refresh of our Long Term Strategy. The population health dashboard is now being used to consider the state of key health determinants and system resilience measures in Wales. Considerable work is in train in relation to the cost of living crisis including active engagement with the Welsh Government, the WHO and the WHOCC has produced and published a cost of living crisis in Wales: a public health lens. We continue to have regular | | | | | | |

meetings with Ministers and officials and we are actively engaged with the WHO and IANPHI in order to help identify, assess and support current and emerging threats.

Overview of changes to controls/actions

(text marked in red in full risk which can be found in Appendix 1.)

| | |
|----------------------|--|
| Controls | The control in relation to meetings with a number of International Association of National Public Health Institutes (IANPHI) European Institutes and Ukraine Public Health Institute have now ceased and are incorporated into a more general engagement. |
| Actions | Updates have been provided for all actions with two being completed since the register was last submitted to the Board. These actions address a gap in control relating to a requirement for a more formalised series of collective public health 'threat' assessment to include health, environmental, socio-economic and geopolitical threats, to be incorporated into Strategic Business Executive Team business. |
| Opportunities | None identified |

4.2. Risk 2

Risk 2 is the only risk in which the DCA is indicated to be green rather than amber. This is due to the delivery of excellent services continuing to be an overarching priority. The controls have been fully refreshed and cover a wide range of topics, many of which are assured at the higher levels of Committee(s) and Board. The actions identified relate to internal changes to screening, health protection, microbiology and clinical infection services to address the external environment creating the risk and are actively progressing, providing the assurance that the risk is being managed.

| Risk Description | | | | | | |
|--|--------------------------------|---|----|---|---|---|
| There is a risk that Public Health Wales will not deliver its plans for delivering excellent services for population screening, health protection and infection caused by uncertainty of the impact of current and future health threats and lack of specialist workforce, resulting in inability to prioritise service delivery and transform models of care. | | | | | | |
| Risk Appetite | | | | Proposal for de-escalation or removal* | | |
| Willing | | | | Not Applicable | | |
| Risk Scoring | Score at last Committee | | | Present Score | | |
| Inherent | 3 | 3 | 9 | 3 | 3 | 9 |
| Current | 4 | 3 | 12 | 3 | 3 | 9 |
| Target | 3 | 2 | 6 | 3 | 2 | 6 |

| DCA at last Committee | Present Live DCA |
|--|---|
| Green | Green |
| Executive Sponsor Insight | |
| <p>The current DCA remains stable, and the directorate continues to hold the delivery of excellent services as the overarching priority. Both incremental continuous improvement and some service transformation continue against a backdrop of significant strategic and operational demands. The Directorate have thoroughly reviewed and sharpened the focus of the actions during the month of October resulting in a number of new actions being noted.</p> | |
| Overview of changes to controls/actions (text marked in red in full risk which can be found in Appendix 1. | |
| Controls | No changes. |
| Actions | Review of actions in October resulting in the removal of some which were pointing more towards core delivery activity. A number of new actions have been identified. |
| Opportunities | In addition to utilising the forecast underspend in the Directorate to expedite elements of service transformation; the Directorate is leveraging the opportunity presented by the refresh of the LTS to strengthen and articulate a compelling narrative and agreed understanding of excellent services for population screening, health protection and infection. |

5. Corporate Risk Register

The Corporate Risk Register was fully refreshed in September 2022 and now has six corporate risks which were approved at Business Executive Team. There are three risks have relevance to the remit of the Quality, Safety and Improvement Committee. An assessment of each of the risks by the respective risk owner is shown below The full risks have been provided in Appendix 2.

5.1. Risk 203

The risk has a number of controls in place however the risk score currently remains the same. There is one action identified which has progressed over the last 12 months i.e. working with partners to increase the number of clinic locations. The new clinic pilot project is progressing well and as this work continues, the risk should be appropriately addressed.

Risk Description

| | | | | | | |
|--|---|--|----|---|----------------------|----|
| DESW is unable to provide an accurate and quality-assured programme to the diabetic population of Wales, and to transform the service to provide quality-assured programme for the increasing diabetic population. | | | | | | |
| Risk Appetite | | | | Proposal for de-escalation or removal* | | |
| Cautious | | | | Not applicable | | |
| Risk Scoring | | Score at last Committee | | | Present Score | |
| Inherent | 5 | 4 | 20 | 5 | 4 | 20 |
| Current | 5 | 4 | 20 | 5 | 4 | 20 |
| Target | 3 | 4 | 12 | 3 | 4 | 12 |
| Overview of changes to controls/actions (text marked in red in full risk which can be found in Appendix 2.) | | | | | | |
| Controls | | No changes. | | | | |
| Actions | | Utilising directorate underspend to allocate £200K resource to support service transformation managed through the Programme Transformation Board. Currently out to the digital market place to procure specialist capacity to support the alpha phase of the transformation. | | | | |
| Opportunities | | Exploiting the opportunity provided by the directorate underspend. | | | | |

5.2. Risk 207

The risk has been refreshed since it was last presented to the Committee. A number of preparatory scoping activities have been completed however further progress on the remaining actions has been impacted by the delays associated with the publication of the Duty of Quality and Duty of Candour guidance which is currently out to consultation and the timeline is outside the control of the organisation.

| | | | | | | |
|---|---|---|----|---|----------------------|----|
| Risk Description | | | | | | |
| There is a risk that Public Health Wales will fail to meet the requirements of The Health and Social Care (Quality and Engagement) (Wales) Act (2020) | | | | | | |
| Risk Appetite | | | | Proposal for de-escalation or removal* | | |
| Willing | | | | Not applicable | | |
| Risk Scoring | | Score at last Committee | | | Present Score | |
| Inherent | 5 | 4 | 20 | 5 | 4 | 20 |
| Current | 4 | 4 | 16 | 5 | 4 | 20 |
| Target | 3 | 4 | 12 | 3 | 4 | 12 |
| Overview of changes to controls/actions (text marked in red in full risk, which can be found in Appendix 2.) | | | | | | |
| Controls | | All controls have been refreshed including an external provider being commissioned and is now in place to support | | | | |

| | |
|----------------------|--|
| | PHW in implementation of the Quality as an Organisational Strategy methodology. |
| Actions | All actions have been fully refreshed. |
| Opportunities | Joint communications pending sign off and will start the communication process to support engagement of the wider organisation with Quality as an organisational Strategy and ensuring close alignment with the implementation of Duty of Candour, and there will be representative from the Duty of Candour on the Duty of Quality SRO group. |

5.3. Risk 208

The risk has a number of controls in place however they do not appear to be reducing the risk (score). Many of the actions have been progressing for over a year with one action paused (single on-call for Microbiology). The action relating to the provision of funding for Agency Consultants has been resolved for the next financial year but beyond this period funding remains uncertain and therefore the impact on the risk is unknown.

| Risk Description | | | | | | |
|---|--|---|----|---|---|----|
| There is a risk that Health Protection and Screening Services will not be able to deliver high quality services in North Wales Infection division as they are struggling to recruit and retain sufficient medical and clinical staff. | | | | | | |
| Risk Appetite | | | | Proposal for de-escalation or removal* | | |
| Cautious | | | | Not applicable | | |
| Risk Scoring | Score at last Committee | | | Present Score | | |
| Inherent | 4 | 4 | 16 | 4 | 4 | 16 |
| Current | 4 | 4 | 16 | 4 | 4 | 16 |
| Target | 2 | 2 | 4 | 2 | 2 | 4 |
| Overview of changes to controls/actions (text marked in red in full risk which can be found in Appendix 2. | | | | | | |
| Controls | No change in controls | | | | | |
| Actions | Progress against action plan continues with some filled recruitment noted. Strategy paper has been developed and is currently working through divisional and directorate governance for scrutiny, discussion and decision. | | | | | |
| Opportunities | Taking the opportunity to revisit approach and agree the strategic direction. Re-look at role re-design/role substitution options. | | | | | |

6. Additional Considerations

The following section details any additional considerations for this Committee.

6.1. New Risks

There have been no new risks identified since the last Committee that are proposed to fall under the remit of the Committee.

6.2. Risks proposed to the escalated or de-escalated*

There have been no new risks identified since the last Committee for consideration to be escalated or de-escalated between the Directorate or Organisational wide registers to the Strategic or Corporate Risk Register that are proposed to fall under the remit of the Committee.

7. Well-being of Future Generations (Wales) Act 2015

No decision required.

Recommendation

The Committee is asked to:

- **Consider** the Strategic and Corporate Risk Register that have relevance to the Committee's remit
- **Take assurance** that the organisation's Strategic and Corporate risks are being managed appropriately

*For any risks proposed to be escalated or de-escalated, the completed form with rationale is provided in Appendix 3.

| Green | High degree of confidence exists that the controls and actions identified will mitigate the risk to the required level. |
| Amber | It is feasible that the controls and actions identified will mitigate the risk to the required level but issues remain outstanding that require addressing. |
| Red | There is little confidence that the controls and actions identified will mitigate the risk to the required level. |

Strategic Risk Register

(Appendix 2)

| EXISTING CONTROLS | | | SOURCES OF ASSURANCE | Level at which the Assurance is provided to | | | | |
|-------------------|--|---|---|---|------------------------------|---------------------------------|-----------------------|-------|
| No. | Control | Exec Owner | | Team / Division / Project / Programme | Directorate Team / Exec Lead | Business Exec Team / Sub Groups | Committee / Sub group | Board |
| SR 1.1 | Regular Business Executive Team Meetings to review implementation of IMTP and emerging threats | Chief Executive/All Execs | Business Executive Team Minutes | | | X | X | X |
| SR 1.2 | Embedded management of health protection response for COVID within HPSS Directorate Leadership Team | National Director of Screening and Health Protection Services and Medical Director | Health Protection and Screening Services Directorate Leadership Team meeting minutes, and COVID Executive meeting minutes | | X | X | | |
| | | | COVID-Executive meeting minutes | | X | | | |
| SR 1.3 | Incident Management Teams in place for Ukraine conflict in PHW and in UK Health Security Agency for UK | National Director of Screening and Health Protection Services and Medical Director | Minutes of Incident Management Team and summary | | X | | | |
| | | | Minutes of UK Health Security Agency Incident Management Team and summary | | X | X | | |
| SR 1.4 | Regular meetings with Welsh Government Minister(s) and officials which include discussions in relation to existing and emerging health and socio-economic threats in Wales | Chief Executive | Actions arising following meetings as appropriate | | X | X | | |
| SR 1.5 | Formalised meetings with WHO Collaborating Centre and WHO | Director of Policy Research and Development, Policy, Research and International Development | Minutes of WHO Collaborating Centre and WHO meetings | | | | | |
| SR 1.6 | Weekly meetings with a number of International Association of National Public Health Institutes (IANPHI) European Institutes and Ukraine Public Health Institute | Chief Executive/ Director of Policy, Research and International Development | Notes of meetings at Executive Lead/ Business Executive Team level as appropriate. THESE HAVE NOW CEASED AND ARE INCORPORATED INTO A MORE GENERAL ENGAGEMENT | | | | | |

Strategic Risk Register

| Action Plan No. | Gaps in controls | Action Plan | Exec Director | Due Date | Progress |
|-----------------|---|---|--|------------|--|
| AP 1.1 | Longer term planning for new and emerging threats incorporated into a revised Long Term Strategy to develop a coherent and synergistic approach to multi-shocks. | Development and approval of new Long Term Strategy | Deputy Chief Executive, Executive Director Operations and Finance | April 2023 | Ongoing development of the Long Term Strategy and engagement with staff and partners. Co-chaired workshop on the cost of living crisis with the WHO Regions for Health Network took place in September which enables learning into the development of the strategy |
| AP 1.2 | More formalised series of collective public health 'threat' assessment to include health, environmental, socio-economic and geopolitical threats, to be incorporated into Strategic Business Executive Team business. | To be considered by BET with the view of identifying a lead (s) Exec to coordinate a regularised approach to multi-shock public health threat assessment – including domestic and global population health threats. | Chief Executive | | Completed This is being incorporated into the regular agenda of the Strategic executive Team meeting. The cost of living crisis is a key item with mobilised action and considerable progress: weekly meeting across the organisation, workshop with the WHO, meetings have taken place with Government officials across policy areas, WHOCC has produced and published the 'Cost of living crisis in Wales: A public health lens on the 15 November, Sumina Azam attended a Cabinet Sub Committee on the reports' findings on the 7 November and did media interviews on the report. |
| | | Develop a rapid re-prioritisation planning process if required that is triggered by significant threats that require substantial in-year focus/resource | Deputy Chief Executive, Executive Director Operations and Finance | | Completed This will be informed by the population health dashboard which is now being incorporated into Executive and Board discussions. The strategic Executive Team provides for the escalation of any threats that need to be considered. The need for re-prioritisation is discussed through this mechanism |
| | | Joint meetings with Welsh Government colleagues to consider this with inclusion of international partners as appropriate | National Director Health Protection and Screening Services, Executive Medical Director and Director of Policy Research and Development, Policy, Research and International Development | | Actioned according to the threat and timing. Cost of living complete. See comments above in relation to the cost of living crisis update. In relation to the conflict in Ukraine, the weekly IANPHI meetings have now ceased. Meng Khaw attended a sirt visit to Poland with other IANPHI colleagues |

Strategic Risk Register

| | | | | | |
|--|--|--|---|--|--|
| | | | | | for the purpose of learning and sharing and this learning to be brought back into Wales. Ongoing discussions in relation to the conflict in Ukraine are taking place as part of the general IANPHI meetings. |
| | | International Horizon Scanning reports to consider new and emerging global public health threats no less than twice a year | Director of Policy Research and Development, Policy, Research and International Development | Ongoing horizon scanning. Focus on emerging threats to be confirmed. | <p>Cost of living horizon scanning report completed in August 2022.</p> <p>This is an ongoing and proactive series as issues and concerns arise.</p> |

Strategic Risk Register

| | |
|---------------|--|
| Risk 2 | There is a risk that Public Health Wales will not deliver its plans for delivering excellent services for population screening, health protection and infection caused by uncertainty of the impact of current and future health threats and lack of specialist workforce, resulting in inability to prioritise service delivery and transform models of care. |

| Risk Score | | | Risk Decision | Delivery Confidence Assessment | |
|---------------------|---------------|--------------------|---------------|--------------------------------|---------------|
| Current Risk | | Target risk | Treat | Green | |
| Likelihood | Impact | Likelihood | | | Impact |
| 3 | 3 | 3 | | | 2 |

| DCA RAG | DCA Description |
|--------------|---|
| Green | High degree of confidence exists that the controls and actions identified will mitigate the risk to the required level. |
| Amber | It is feasible that the controls and actions identified will mitigate the risk to the required level but issues remain outstanding that require addressing. |
| Red | There is little confidence that the controls and actions identified will mitigate the risk to the required level. |

Risk Owner's Overview Assessment Status

The current risk score is at the inherent risk level. However, in recent months, this had the potential to be higher resulting from a number of significant health protection incidents had increased (such as monkeypox and exceedance of STEC), but those threats have now stabilised.

There are existing controls relating to: workforce planning and development; mitigation of impacts of unexpected health threats through the establishment of effective systems and processes; and strengthening governance arrangements to ensure excellent service delivery in HPSS.

Each of the three divisions in HPSS directorate are likely to score differently if reviewed independently and this will be reflected in divisional and directorate risk registers.

This is a known dynamic risk and as such will be actively monitored and managed in HPSS at both division and directorate levels, all informing the strategic RR.

Reviewed November 2022

| 283 | Organisational Objectives | 02/11/2018 | Executive Director for Health Protection and Screening Services | Health Protection and Screening Services | DESW is unable to provide an accurate and quality-assured programme to the diabetic population of Wales, and to transform the service to provide quality-assured programme for the increasing diabetic population. | There are inadequate processing in place to provide assurance of consistent and quality assured grading practice. There is a lack of effective measures and monitoring and feedback from ophthalmology services for referred population. There is a mismatch between service demand and capacity to provide quality and timely service. There is a projected increase in diabetic population (current referral level = 1000 new patients per month). There is a lack of service capacity to achieve service standards. There is a lack of clinical governance to support quality delivery. | Patients will have extended waits for eye screening, potentially leading to delayed referral and which may increase risk of irreversible sight loss due to retinopathy. Due to lack of quality assurance of grading, screening participants may receive inaccurate screening results which may result in patients incorrectly being put on routine recall and not being referred to ophthalmology as appropriate. Service model is unsustainable, resulting in increased errors/incidents. Reputational damage for PHW. Loss of confidence in service leads to detrimental impact on uptake. Increase in complaints, claims and staff grievance. Loss of staff members, resulting in further service instability. | 5 | 4 | 20 | Optimising the service: Standards in place and being monitored to support service transparency. First stage management restructure following staff consultation within budget agreed to improve line management structure to enable support to staff which was completed Nov 19 with all staff now in post. Further to issues identified around lack of robust regional clinical governance in the programme and quality assurance this has resulted in additional investment by PHW into the service. This has included the support to establish three regional co-ordinators, a senior quality lead and additional project support to upgrade the current IT system. This additional investment brings the service in line with other screening division structure in terms of clinical governance and oversight. Recruitment to posts is underway and expected to be completed with all staff in post by end Feb 2020. Appointment of senior manager with responsibility for development and maintenance of appropriate quality framework. Implement workflow model in grading team to provide capacity to enable quality control and assurance processes. Transformation work is in progress with recruitment to establishment of team underway with this team having capacity to work to undertake necessary work to enable plan to transform the service. | 5 | 4 | 20 | → | Treat | Work with partners to increase the number of clinic locations and increase capacity for screening. Implement IT systems upgrade to improve efficiency | 31/03/2022 | | 3 | 4 | 12 | Update November 2022 - IT upgrade planned to be implemented in November 2022 which will enable improved workflow for programme and work is progressing for outsourcing of letters which will enable pathways staff to prioritise workload. New clinic templates are being implemented which will improve capacity. Transformational work plan being progressed and paper taken to BET 15 November to detail progress. In addition to the alpha work being undertaken within the programme, funding was identified to buy in specialist expertise to assist specifically with the digital integration of DESW to the other NHS systems in Wales and progress with the recommendations of the Learning from the Alpha Testing undertaken by the programme will inform and underpin the specialist work. Update October 22 - utilising directorate underused to allocate £200K resource to support service transformation managed through the Programme Transformation Board. Currently out to the digital market place to procure specialist capacity to support the alpha phase of the transformation. Update 21/09/22 - Mountain Ash clinic continues to work well and new clinic template piloted which will improve numbers of clinic appointments which worked well with receptionist role in place. New service models explored for young people clinics which provided good qualitative feedback although uptake was lower than hoped but this will inform service. Transformation board continues to meet and work is progressing with clear task groups with good staff involvement. Short term funding made available to support capacity to progress transformation work and actioning this is been taken forward. Venue continuing to be explored and there is some improvement but not significant. Update 9 Aug 2022 The new screening centre is now open in Mountain Ash and working well with two clinics being able to be run concurrently and this has improved availability of screening appointments as diabetic eye screening able to offer screening clinics daily. New service models are being explored with young people clinics being trialled at different times of the week, evening and weekend to understand service user feedback. Newsletter has been sent out to community partners which has improved engagement and some addition discussions around potential venues. The transformation programme is progressing and meeting held with colleagues across organisation to explore how can support transformation. Bid put into value work stream for transformation team resource was not unfortunately unsuccessful. The grading is fully quality assured. The service is still impacted by staff sickness absence - both from impact of Covid infections and some long term absence. The senior management team is now at full complement. Update 9 Aug 2022 The new screening centre is now open in Mountain Ash and working well with two clinics being able to be run concurrently and this has improved availability of screening appointments as diabetic eye screening able to offer screening clinics daily. New service models are being explored with young people clinics being trialled at different times of the week, evening and weekend to understand service user feedback. Newsletter has been sent out to community partners which has improved engagement and some addition discussions around potential venues. The transformation programme is progressing and meeting held with colleagues across organisation to explore how can support transformation. Bid put into value work stream for transformation team resource was not unfortunately unsuccessful. The grading is fully quality assured. The service is still impacted by staff sickness absence - both from impact of Covid infections and some long term absence. The senior management team is now at full complement. Update 22/07/22 - The new screening centre is now open and this has improved availability of screening appointments as diabetic eye screening able to offer screening clinics daily. Further clinics have now been made available to use which will further improve capacity, although not to pre-covid levels. The IT upgrade was successfully implemented in June as expected on time and impact on clinics minimised. The transformation programme is progressing and exploring how to take forward and test some of the ideas identified in the discovery work. The service is still impacted by staff sickness absence - both from impact of Covid infections and some long term absence. The senior management team is now at full complement. Update 16/06/22 - screening has continued to be offered despite high levels of staff absence. Work continues with screening hub plan for additional venues which is needed to improve availability and offer the first new screening venue expected to be screening participants in June in Mountain Ash. The programme have had confirmation that they will be able to return to offer screening in nine health board venues that use before the pandemic. The novel optometry pathway which was operated from November 2021 to March 2022 with low risk participant offered a optometry review and over 28,000 invitations were sent with over 10,000 appointments were taken up. Additional photographers have been appointed as part of recovery plan for the programme and all are in post and nearing completion of their training. Work is underway to progress the upgrade of the IT system (optimise) that the programme uses which will enable tasks to be less manual. The programme has started scoping work around transformation and has recently completed the discovery phase of the work with colleagues in Public Health Knowledge and Research and a commissioned company and that is being used to inform the next steps in transformation work. Update 22/04/22 - screening has continued to be offered despite high levels of staff absence. Work continues with screening hub plan for additional venues which is needed to improve availability and offer with one new venue expected to be operational in next two months. The novel optometry pathway which was set up in November 2021 finished as planned in March 2022. This has supported recovery offering participants identified at low risk of diabetic retinopathy a retinal review with optometry. Over 166 optometrists have supported this novel pathway and each local authority was represented. Staff have supported this pathway by working weekends and have sent over 28,000 invitations and over 10,000 appointments were taken up. The programme is starting scoping work around transformation and is working with colleagues in Public Health Knowledge and Research and a commissioned company to undertake discovery work. Due to substantive head of programme taking up secondment for another screening programme the head of programme role has split into two new secondment posts due to workload and this structure is working well. Optimisation Manager is operationally responsible for the running of the programme day to day and Transformation Manager will lead on the upgrade of the IT system (optimise) and also scope out alternate service delivery models for an effective and sustainable DES service in Wales. The programme is starting scoping work around transformation and is working with colleagues in Public Health Knowledge and Research and a commissioned company to undertake discovery work. Update 25/02/22 - screening has continued to be offered throughout the Omnicom wave of the pandemic despite staff absence. Work continues with screening hub plan for additional venues which is needed to improve availability and offer. The additional venue identified in Cardiff which has improved offer locally is working well. Offer of retinal review by optometrist continues to those identified as low risk of sight threatening retinopathy who have waiting longest for screening offer. Over 20,000 letters offering review have been sent to date with over 150 optometry practices supporting offer across Wales. Due to substantive head of programme taking up secondment for another screening programme the head of programme role has split into two new secondment posts due to workload and this structure is bedding in and working well. Optimisation Manager is operationally responsible for the running of the programme day to day and Transformation Manager will lead on the upgrade of the IT system (optimise) and also scope out alternate service delivery models for an effective and sustainable DES service in Wales. Update 26/01/22 - screening has continued to be offered throughout the Omnicom wave of the pandemic. Work continues with screening hub plan for additional venues which will improve availability and offer. Additional venue identified in Cardiff which has good availability and has improved offer locally. Offer of retinal review by optometrist has progressed to those identified as low risk of sight threatening retinopathy who have waiting longest for screening offer. Over 11,000 letters offering review have been sent to date and planned 3,000 letters to be sent out weekly with over 140 optometry practices supporting offer across Wales and invoices for reviews starting to be received as the reviews are completed. Substantive head of programme has taken on secondment for another screening programme and have divided the head of programme role into two new secondment posts due to workload: Optimisation Manager who is operationally responsible for the running of the programme day to day (starts 17 Jan) and Transformation Manager (starts 31 Jan) who will lead on the upgrade of the IT system (optimise) and also scope out alternate service delivery models for an effective and sustainable DES service in Wales. Update 26/11/21 - work progressing well with screening hub plan for 3 venues in South Wales which when implemented will improve availability and offer, with one venue in Cardiff which is urgently needed. Started to implement offer of retinal review by optometrist to those identified as low risk of sight threatening retinopathy who have waiting longest for screening offer - first batch of offer letters sent 22 Nov and optometry colleagues supportive with 120 practices agreeing to participate and each LA has at least one optometrist. IPC guidance now updated to be at least 1 metre distance and we will review clinic templates to see how this change can be implemented safely to increase number of appointments. Update 03/11/21 - continued discussion to restore venue availability with Health Boards with some small improvement but venue availability concern in Cardiff as no longer able to screen from arts venue. Work progressing with screening hubs which will improve situation medium term. IT system upgrade implemented but will need to further support further service developments including implementation of risk based screening | | | | | | |
| 287 | Quality | 04/10/2021 | Executive Director Quality, Nursing and Allied Health Professionals and Director for NHS Quality Improvement and Patient Safety, Improvement Cymru | Corporate | There is a risk that Public Health Wales will fail to meet the requirements of The Health and Social Care (Quality and Engagement) (Wales) Act (2020) | This will be caused by competing priorities, a lack of organisational capacity and capability to support timely implementation | The impact will be noncompliance with the legislative requirements, and a lack of progress in strengthening quality improvement and governance in the delivery of safe services, programmes and functions. | | | | Duty of Candour (Rhianon Beaumont Wood) 1.
