2	anonymous	There are a lot of papers at this committee and I do wonder whether some of the papers do not necessarily need to go to this committee, what can be streamlined to provide a reduction in papers. Are some really necessary? whilst there is not enough time to interrogate those that are. I have just watched the awful Post Office Scandal and it made me ponder what actually are the Board doing? are they fed information and accept it? Should they be the ones to determine what evidence is required for assurance? do the committee talk to each other?

4	anonymous	As QSIC is going through a pilot looking at modifying it to enable more discussions we are still in the process of making the agenda, reports and presentations more succinct and defined to enable more discussion and engagement between attendees. Work in progress but going well so far in my opinion. Everyone is working together to achieve this aim.
